SUMMARY

Computer Science Engineering student specializing in Financial Computing and Risk Analytics, with practical experience in credit risk analysis and financial data processing. Seeking opportunities in Data Science, Risk Analytics, or Financial Engineering.

PROFESSIONAL EXPERIENCE

Credit Risk Modeling Intern — EY Tunisia

06/2026 – 08/2026

- Developed Probability of Default (PD) and Loss Given Default (LGD) models on a Retail loan portfolio (Basel II/III).
- Built a complete machine learning pipeline following the CRISP-DM methodology.
- Deployed the solution as a prediction service using FastAPI and Streamlit, with experiment tracking via MLflow.

Tools: Python, Scikit-learn, FastAPI, Streamlit, Docker, MLflow, Git

Credit Risk Analyst Intern — STB Bank

06/2025 – 07/2025

- Cleaned, transformed, and integrated banking datasets from multiple data sources.
- Automated the computation of key financial indicators and ratios using Python.
- Performed statistical analyses to identify significant predictive variables.

Tools: Python (Pandas, NumPy), Excel, Statistical Analysis, Feature Engineering

IT Support & Asset Management Intern — Express Display

07/2023 – 08/2023

- Hands-on experience with GLPI (IT Asset Management & Help Desk): asset inventory, ticket management, system configuration, reporting, and user support.

PROJECTS

Ethereum Address Risk Prediction — ML pipeline classifying Ethereum wallets to detect fraudulent addresses using supervised & unsupervised learning (classification, clustering, anomaly detection). Python, Scikit-learn, SMOTE, PCA, KMeans, DBSCAN.

CAPM Liquidity — Empirical study of liquidity-adjusted CAPM on 30 DJIA stocks using econometric modeling and panel regressions. R, Econometrics, Panel Regression, Yahoo Finance.

EQUA — Decentralized Microfinance Platform — Blockchain-powered microfinance platform with a dual-wallet (fiat + tokenized assets) architecture. Java 21, Spring Boot, PostgreSQL, Docker, Angular.

SKILLS

Data & ML: Python, Pandas, NumPy, Scikit-learn, XGBoost, Random Forest, Logistic Regression, Statistical Analysis

Programming Languages: Python, Java, C#, JavaScript, SQL, PHP, R

Frontend: React, Angular, HTML

Backend: Spring Boot, Symfony, REST APIs

Databases: MySQL, PostgreSQL, MongoDB

DevOps & Tools: GitHub, Docker, Kubernetes, CI/CD, SonarQube, Prometheus, Grafana

EDUCATION

Engineering Degree in Computer Science — Financial Computing & Engineering, ESPRIT

2022 – 2027

Baccalaureate in Technical Sciences — Ibn Rachik High School, Ezzahra

2021 – 2022

LANGUAGES & ACTIVITIES

Languages: Arabic (Native), English (B2), French (DEL F B2)

Activities: Founder, Tunipreneurs Club at ESPRIT (2025–2026); Member, Interact Club (2021–2022)
